

Astarachay LLC

Astaraçay LLC has started its operation since 2010 with establishment of new tea plantations in subtropic regions of Azerbaijan – Astara and Lankaran. Today the company owns 450 hectares of tea plantations. All tea estates are grown in clean ecological environment and no chemicals are being used during growing and production of tea. Construction of new tea factory was completed in 2015, where modern tea production machinery has been installed and tea production began. Tea processing machinery was purchased from Kasawasi Kiko of Japan and South Korean companies, whereas tea packaging machinery was purchased from Germany.
